9. Compensation shall not be paid for the failure of a **Pharmaceutical** or Medical Device under trial to perform its intended purpose.

- b. the seriousness of the injury treated in the **Human Clinical Trial** and the degree of probability that adverse reactions would occur and any warning that the **Research Subject** received;
- c. the comparison of risk between established treatments and those that are used or researched in a **Human Clinical Trial**;
- d. the availability and efficacy of alternative treatments which would have been available to a **Research Subject** had that person not agreed to participate in the **Human Clinical Trial**.
