- ‘Advance Annuity Period’ is a future period of 1 to 5 years starting from the Policy anniversary immediately following the date of exercise of this option to receive Annuity in advance. Policyholder will have the option to choose the tenure of Advance Annuity Period from 1 to 5 years.

The discounting of such Annuities will be done up to the Policy anniversary date immediately following the date of exercise of the option to receive Annuity in advance.

E.g. If a Policyholder selects to advance full payments (x=100), there won’t be any Annuity payable during the Advance Annuity Period. However, if Policyholder selects x% of original Annuity amount to be received as advanced Annuity, then during the Advance Annuity Period an amount equal to (100-x)% of original Annuity shall continue to be paid as and when due.
- The Advance Annuity Amount shall be calculated as per the below formula: Advance Annuity Amount = Discount Factor x Annuity Instalment x Number of Annuities payable in Advance Annuity Period x Proportion of Annuity (x%), where x% can be between 1% to 100%. The interest rate used to calculate the Discount Factor is linked to the average pricing interest rate. Any change in the interest rate used to calculate the Discount Factor shall be with prior approval from IRDAI.
- For all Advance Annuity options commencing during the 12 months’ period from 1st May to 30th April, the interest rate used to discount the Annuity for advance shall be per annum based on prevailing 10 year G-sec rate on the date of such requests.   - If the surviving Annuitant surrenders or dies after receiving the Advance Annuity Amount but dies before the start of ‘Advanced Annuity Period’, the Surrender or Death Benefit will be reduced by the full advanced Annuity amount already paid.
  - If the surviving Annuitant surrenders or dies during the ‘Advanced Annuity Period’, the Surrender or Death Benefit will be reduced by the remaining advanced Annuity amount already paid. which shall be equal to: [Advanced Annuity amount x (n-t)/n], where, n = ‘Advanced Annuity Period’ in months, t= period elapsed in months from the start of Advance Annuity Period to the date of Surrender or death of the surviving Annuitant.

- This option can be exercised only if no loan is outstanding under the Policy. No new loan can be availed during Advance Annuity Period wherein this option is exercised.

## 11.2 Special Date Option

- This option is available under Digit Sukoon variant only.

- This option needs to be selected at the Date of Inception of the Policy or before the first Annuity payout is made.
- The special date for first Annuity payout shall be after the default due date of first Annuity / Survival Benefit instalment payout but before the default due date of immediate next Annuity / Survival Benefit instalment payout. The subsequent Annuities/ Survival Benefit instalments payable from special date shall be increased for the period between the default due dates of Annuity /Survival Benefit payouts and special dates selected, at an interest rate equal to State Bank of India savings interest rate as on the first working day of the respective financial year..

- Once this option is chosen, it cannot be changed later.

## 11.3. Change in Annuity Benefit payout and Survival Benefit payout (if applicable) frequency

Policyholder may choose to receive Annuity Benefit and applicable Survival Benefit annually or half-yearly or quarterly or monthly as per the Annuity payout frequency and Survival Benefit payout frequency (for applicable Survival Benefit) respectively chosen at the Date of Inception of the Policy. Annuity Benefit and applicable Survival Benefit shall be payable in arrears, as per the chosen payout frequency for these Benefits. For Annuity payout frequency being other than annual, Annuity payout instalments are calculated by applying the loading factor as given below on corresponding Annuity payable with annual payout frequency:

Annuity Payout frequency	Applicable loading factors under Digit Sukoon	Applicable loading factors under Digit Boss		
		For Policies with 80% Guaranteed Annuity	For Policies with 70% Guaranteed Annuity	For Policies with 60% Guaranteed Annuity
Half-Yearly	2%	1.60%	1.40%	1.20%
Quarterly	3%	2.40%	2.10%	1.80%
Monthly	4%	3.20%	2.80%	2.40%

For change in payout frequency of Survival Benefit in instalments, no loading factor shall be applied.

An example is given below to explain how monthly Annuity amount is calculated by applying the monthly loading factor on annual Annuity amount:

Annuity with annual payout frequency under Digit Sukoon	Rs. 1,00,000
Loading amount to calculate the equivalent monthly Annuity amount under Digit Sukoon	(Annual Annuity amount*4%) Rs.1,00,000 *4% Rs. 4,000
Equivalent monthly Annuity amount	(Annual Annuity amount – loading amount)/12 (Rs.100,000 – Rs. 4,000) / 12 Rs. 8,000 per month

The payout frequency for these Benefits chosen at the Date of Inception of the Policy can be changed anytime later by submitting a request at least 30 days before the next Annuity Benefit payout anniversary or Survival Benefit payout anniversary (as the case may be), subject to terms and conditions of the Policy and shall be effective from the next Annuity Benefit or Survival Benefit payout anniversary respectively. Once changed, request for next change in the payout frequency of Annuity or applicable Survival Benefit can be made only after completion of a year.

## 11.4. Option to reduce the Premium (Applicable for Limited and Regular Pay Policies only)

After payment of Premiums for first five completed Policy Years, but before the commencement of Annuity Payout, if any, the Policyholder may be given an option to decrease the Premium upto 50% of the original Annualized Premium, subject to the minimum Premium limits under this Policy. Once reduced, the Premium cannot be subsequently increased. All outstanding Benefits under this Policy may be revised by applying a reduction factor subject to the minimum Annuity Benefit allowed under Digit Life Pension Plan.

Revised Benefit amount will be calculated as given below:  

$$\text{Revised Benefit amount} = (T/\text{Premium Payment Term} \times B1) + ((\text{Premium Payment Term} - T)/\text{Premium Payment Term} \times B2)$$
 where T is the completed number of Policy Years for which the original Premium has been paid, B1 is the original level of Benefits payable and B2 is the revised level of Benefits corresponding to the reduced Premium while taking the Premium size discount, if any, in consideration.

**11.5 Premium under this Policy:**

In case of Limited Pay and Regular Pay Policy, Premiums can be paid on annual, half-yearly, quarterly or monthly basis as per the chosen Premium payment frequency and as set out in the Policy Schedule or as amended subsequently. The method of Premium collection will be subject to board approved underwriting Policy of the Company.

For Premium payment frequency other than annual, instalment Premiums payable are calculated by applying the loading factor as given below on annual premium:

Premium payment frequency	Applicable loading factors under Digit Sukoon	Applicable loading factors under Digit Boss		
		For Policies with 80% Guaranteed Annuity	For Policies with 70% Guaranteed Annuity	For Policies with 60% Guaranteed Annuity
Half-Yearly	2%	1.70%	1.55%	1.40%
Quarterly	3%	2.55%	2.33%	2.10%
Monthly	4%	3.40%	3.10%	2.80%

Policyholder shall have an option to change the Premium payment frequency during Premium Payment Term by submitting a written request to Us, provided the limits of minimum Premium for the chosen Premium payment frequency are adhered to and the Benefits remain unchanged. Any change in the Premium payment frequency will result in a change in the Premium amount basis the applicable loading factor. A change in Premium payment frequency will be effective only on the Policy anniversary following the receipt of such request, subject to the Policy being In Force.

**11.5.2 Payment of Advance Premiums:** Collection of advance Premium shall be allowed within the same financial year for the Premium due in that financial year. However, where the Premium due in one financial year is being collected in advance in earlier financial year, Premium for maximum period of three months in advance of the due date shall be collected or as may be permitted by IRDAI. The Premium so collected in advance shall only be adjusted on the due date of the Premium. These advance premiums shall be non-refundable, except in case of Free Look Cancellation of this Policy.

Instalment Premium payment in parts shall not be accepted. During the Grace Period, the Policy shall continue to be In Force for availing the Benefit(s) as applicable. Any unpaid due Premium is deductible from the Benefits that may arise during the Grace Period. The Company shall pay the applicable Benefit(s) for valid claims or on happening of the applicable insured event during Grace Period, subject to the deduction of the Premiums due as well as balance Premiums for the Policy Year, if any under the Policy.

A Premium will be deemed to remain unpaid if the Premium amount has not been realized by Us. If any Premium remains unpaid after the expiry of the Grace Period, the Policy may lapse or become reduced paid-up, as described in Part D Clause 2 with effect from the due date of the first unpaid Premium. In that event, the Benefits under such Policy shall be payable in accordance with Part D Clause 2.

## ANNEXURE – I

**Section 45** – Policy shall not be called in question on the ground of misstatement after three years

Provisions regarding Policy not being called into question in terms of Section 45 of the Insurance Act, 1938, as amended from time to time are as follows:

- 1) No Policy of Life Insurance shall be called in question **on any ground whatsoever** after expiry of 3 years from
  - a) the date of issuance of Policy or
  - b) the date of commencement of risk or
  - c) the date of Revival of Policy or
  - d) the date of rider to the Policy,  
whichever is later.
- 2) On the ground of fraud, a Policy of Life Insurance may be called in question within 3 years from
  - a) the date of issuance of Policy or
  - b) the date of commencement of risk or
  - c) the date of Revival of Policy or
  - d) the date of rider to the Policy  
whichever is later.

For this, the insurer should communicate in writing to the insured or legal representative or nominee or assignees of insured, as applicable, mentioning the ground and materials on which such decision is based.

- 3) Fraud means any of the following acts committed by insured or by his agent, with the intent to deceive the insurer or to induce the insurer to issue a life insurance Policy:
  - a) The suggestion, as a fact of that which is not true and which the insured does not believe to be true;
  - b) The active concealment of a fact by the insured having knowledge or belief of the fact;
  - c) Any other act fitted to deceive; and
  - d) Any such act or omission as the law specifically declares to be fraudulent.
- 4) Mere silence is not fraud unless, depending on circumstances of the case, it is the duty of the insured or his agent keeping silence to speak or silence is in itself equivalent to speak.
- 5) No Insurer shall repudiate a life insurance Policy on the ground of Fraud, if the Insured / claimant can prove that the misstatement was true to the best of his knowledge and there was no deliberate intention to suppress the fact or that such misstatement of or suppression of material fact are within the knowledge of the insurer. Onus of disproving is upon the Policyholder, if alive, or claimant.
- 6) Life insurance Policy can be called in question within 3 years on the ground that any statement of or suppression of a fact material to expectancy of life of the insured was incorrectly made in the proposal or other document basis which Policy was issued or revived or rider issued. For this, the insurer should communicate in writing to the insured or legal representative or nominee or assignees of insured, as applicable, mentioning the ground and materials on which decision to repudiate the Policy of life insurance is based.
- 7) In case repudiation is on ground of misstatement and not on fraud, the Premium collected on Policy till the date of repudiation shall be paid to the insured or legal representative or nominee or assignees of insured, within a period of 90 days from the date of repudiation.
- 8) Fact shall not be considered material unless it has a direct bearing on the risk undertaken by the insurer. The onus is on insurer to show that if the insurer had been aware of the said fact, no life insurance Policy would have been issued to the insured.
- 9) The insurer can call for proof of age at any time if he is entitled to do so and no Policy shall be deemed to be called in question merely because the terms of the Policy are adjusted on subsequent proof of age of life insured. So, this Section will not be applicable for questioning age or adjustment based on proof of age submitted subsequently.

**[Disclaimer: This is not a comprehensive list of amendments. Policyholders are advised to refer to Section 45 of the Insurance Act, 1938, as amended from time to time for complete and accurate details].**
